

# LEGAL INTERN JOB VACANCY

## All about us:

We are Datamaran: a fast-paced, energetic and high-growth technology company.

We help our clients identify and monitor ESG risks and opportunities - so they can be successful.

We're headquartered in London - with offices in New York City and Valencia - and serve large corporate and investor clients all over the world!

Our mission is to positively impact the world by creating resilient businesses and helping investors identify these businesses.

We use cutting-edge AI technology - and we hold ourselves to the highest standards of quality - always.

We're a blend of different professional backgrounds and personalities: 20 nationalities with expertise in technology, risk management, law, CSR/ESG, and design.

Our collaborative team brings a lot of passion and energy - we like to surprise ourselves and our clients.

This mix makes Datamaran a unique workplace, and a close-knit one.

## You will:

- Research regulatory initiatives (national and international regulations, EU Directives, reporting frameworks, guidelines, industry initiatives) in the field of corporate sustainability
- Advance development of our unique Regulatory Database
- Create mappings and inventories based on industry and legal data
- Analyse data and help enrich Datamaran's semantic ontology
- Gain work experience in one of the most booming sectors of the moment, from a desk in the heart of London Tech City
- Collaborate with an experienced team and engage with our extensive, international network (corporate, NGO and academic).

## Key competencies:

- Excellent legal research skills
- Strong analytical skills
- Organizational skills

## What we are looking for:

We're looking for a **Legal Intern** to join our fast-growing team. This internship is a research position, focused on further refining our unique Regulatory Database. That said, we'd like you to join us on the big waves of innovation.

**When? Starting date: As soon as possible**

**Where? Location: London, UK**

**Duration: 6 months**

## Relevant experience:

- Bachelor's or Master's degree (or equivalent) in law
- Knowledge of and genuine affinity with corporate sustainability and governance
- Experience conducting research and analysis
- Strong legal writing skills
- Comfortable with software, data analysis and statistics
- Positive, proactive attitude and strong communicative skills
- Previous work experience in a startup
- Oral and written fluency in English, proficiency in a second language

And in return we offer:

## Other Benefits:

- A dynamic and international work environment
- 24 days of annual leave excluding bank holidays
- Subsidised lunch
- Free snacks in the office
- Gym Membership
- Pension plan
