

JUNIOR WEB DESIGNER JOB VACANCY

What we are looking for:

We are looking for a Junior Web Designer who wants the opportunity to join our company during a period of exciting growth. As the Junior Web Designer - Intern, you will be working closely with the Lead UX/UI Designer and Principal Software Architect helping in all design relating to all divisions of the company's online presence. You will be comfortable working in an extraordinarily fast-paced environment and keep a cool head under pressure. It goes without saying that you'll keep up-to-date with the latest web design trends to constantly improve the look and feel of the platform and public website.

- **When? Starting date: As soon as possible**
- **Where? Location: London, UK/Valencia, Spain**

Key Skills and competencies:

- Hands on experience on HTML5 and CSS
- Hands on experience in creating Responsive and accessible UI
- Knowledge of HTML standards
- Experience on version control software (Bitbucket, Github etc.)
- Experience on D3.js or any other library to create powerful visualizations
- Knowledge of web based applications - standards, patterns and approaches that enable web access for all users, irrespective of browsing technology
- Experience with Adobe Creative Suite (Photoshop and Illustrator, Adobe XD)
- Portfolio demonstrating graphic/web design work and technical expertise
- Web Design & Programming educational background
- Quickly iterate on multiple solutions as required
- Consistent in design system/brand guidelines
- An excellent eye for detail
- Well organised and able to manage own time efficiently

Good to have competencies:

- Javascript on client side or JQuery
- Experience in wordpress websites
- Knowledge of Accessibility
- Experience with ASP, PHP and MySQL is desirable but not essential.

Benefits:

And in return we offer a competitive salary, career progression and additional benefits, including:

- A dynamic and international work environment
- Subsidised meals
- Free snacks

About us:

We are Datamaran: a fast-paced, energetic and high-growth technology company.

Our cloud based platform Datamaran enables a business process for continuous issues monitoring fully owned by the sustainability and risk teams. It harnesses technology to support decision-makers with an improved materiality analysis process – one that seamlessly integrates into Enterprise Risk Management (ERM) and corporate strategy.

We are headquartered in London - with offices in New York City and Valencia - and serve large corporate and investor clients all over the world!

Our mission is to positively impact the world by helping businesses to ensure continuous resilience through evidence-based decision-making.

We use cutting-edge AI technology - and we hold ourselves to the highest standards of quality - always.

Our team comes with a diverse experience in technology, big data, ESG, law, finance and risk management.

Such a unique mix makes Datamaran a unique workplace, and a close-knit one.

Our values:

Performance-driven

We have different backgrounds, we are from all around the world and we have diverse expertise. What unites us is our focus on performing at our best, continuously learning and thriving as we face new challenges.

Collaborative

We are a close-knit team who support one another with the bigger vision in mind. We think two heads are better than one, and we consult with and support our colleagues to find the best solutions for our clients.

Committed

We are an ambitious company with a mission to put sustainability risk on the radar of every business – and we are passionate about using the latest technology and our creativity to achieve that.

Agile

Change is a constant, and we are ready to bend and flex to adapt to the external environment and jump on opportunities. Our vision is clear, but the path to get there may change; we are excited about every twist and turn.
